Just let me know when and I can try to be available. I think you might need a navigator the first time (I did - called SMO).

I found the Excel file in the SMO portal. I can show you how to get to it if you join sometime or give me a call.

Have not got a hold of the excel sheets. Working on all of the dissolved metals data first.

So, you will have to transfer the final data from each sample into your xls spreadsheet from a pdf by hand? There should an Excel version of that data that can be downloaded from the portal if not on the CD.

Thanks for sending the pdf. Will take a closer look but very interested (of course) in how they compare.

(See attached file: MH3BP4.pdf)(See attached file: MH3BM4.pdf)

These are for the dissolved metals.
